

PERSONAL DECISIONS MATTER DURING COVID-19

The personal decisions we make over the next several weeks are critical. Daily choices matter. It is known that social activities are accelerating the spread of the COVID-19 virus. As you make plans over the next several weeks, we ask that you please consider your impact on the COVID-19 pandemic.

Use the chart to the right to evaluate your activities to see how safe they are. The lower the number, the safer the activity. Please make sure to adhere to local and state guidelines. We all must do our part to keep those around us safe.

What you can do to stay safe:

- Avoid groups of more than 10
- Stay 6 feet from others
- Wear a mask in public
- Eat outside if possible
