PAIR TO PREPARE

Ease into Life at Cedarhurst with a Loved One by Your Side

Pair to Prepare is a new program allowing a spouse, relative or friend to stay with a new resident for their first few days at Cedarhurst. At no additional expense, this unique program helps residents ease into their new life with companionship and support from their very first day.

How Pair to Prepare Works:

Before Move-In:

Before Move-In Day, our Community Relations Director will meet with the new resident and family, plus their special chosen loved one to plan and review all the details of the move-in.

The Big Day!

Move-In Day is designed to assure that our new resident feels comfortable in their new surroundings. Once we help with the move-in, they'll meet a Resident Ambassador- a friendly and helpful current Cedarhurst resident. Our Environmental Services Director will visit to review technology, climate controls and safety procedures with the resident and their loved one. After a welcome dinner in the main dining room with our Executive Director, it's time for the first night at Cedarhurst!

Days Two and Three.

To reassure and let our new residents and their "paired" partner know how special they are to us, we've put together a suite of fun and useful activities – welcome meals, guided tours, meetings with medical professionals and caretakers as necessary – even a complimentary trip for two to the hair salon/barber shop!

Beyond Day Three?

If a resident wishes up to five days of companionship can be arranged at no cost.

To learn more about Pair To Prepare please contact our Community Relations Director.
